

TECHNICAL SPECIFICATIONS	GASTONE Pick-up Long	GASTONE Pick-up Short	GECO / GRIFO Shuttle
Homologation	N1		
Frame	Aluminium EN AW-5754 H111		
Range	Up to 130 km. per day (vehicle consumption certified by ECE101 test)		
Max. payload	Up to 1.250 kg.		Luggage 260/380 kg.
Seats	2		6/7 (8 - private areas)
Wheelchair	//		GECO
Tyres	145 R 13 C (165 R 13 or M+S - optional)		
Max. speed	40 km/h		
Loading bed	1.100 X 2.400 mm.	1.100 x 1.800 mm.	//
Electric motor AC, brushless	10 kW - peak 15 kW		
Electronic control drive	Curtis inverter with vector algorithm		
Engine brake with energy recovery	Yes		
EPS (Electric power steering)	Optional		
Lead sealed batteries GEL	AGM – no refilling needed On request		
Lithium batteries	12.8 kWh / 15.3 kWh - on request		
Energy accumulation	16,2 kWh (24,1 kWh – optional)	16,2 kWh	
Quick battery replacement	In less than 5 minutes with transpallet		//
Battery charger	On board. High frequency with PFC		
Driver seat	With security sensor		
Electric heater / Webasto	With thermostat / optional		
Towbar	450 kg. homologation (3.000 kg. private area)		//
Width, mm	1.200		1.200/1.360
Length, mm	3.890	3.230	4.000/3.982
Height, mm	1.940		2.090/2.150
Warranty	24 months, 10 years on the chassis		

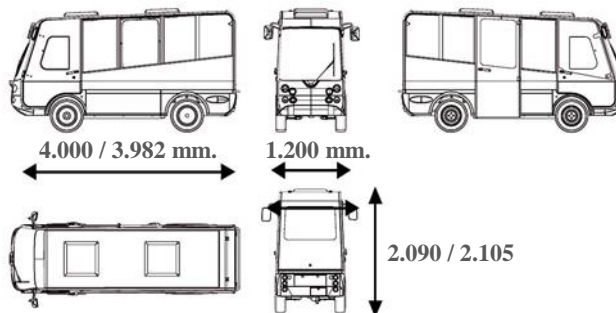

Our company, located in Milan – Ital (since 1985) designs and produces totally electrical, short-range commercial vehicles for the transportation of goods and people. They are zero-emissions and low noise vehicles and allow savings in maintenance costs.

We produce:

- **GECO & GRIFO SHUTTLES**, for transportation of up to 7 people, driver included, wheelchair is possible;
- **GASTONE PICK-UP**, for transportation of goods, available in long and short versions with more than 20 configurations;
- **GAGLIOFFO**, for use in private areas, includes a special configuration for disabled persons transportation, for railways.

OUR “PLUS”:

- ✓ **Entirely Made in Italy**
- ✓ **N1 EU homologation**
- ✓ **Aluminium frame**
- ✓ **Big payload:**
for **GECO**: driver+passengers + 260 kg. (573 lb);
for **GRIFO**: driver+passengers + 380 kg. (838 lb.)
- ✓ **Long range:** up to **130 Km./day** (80 miles), certified ECE101.

Shuttle 6 persons
Shuttle 7 persons
Shuttle 4 persons + wheel chair

STANDARD EQUIPMENT

Structure

- Frame in aluminium, 10 years guaranteed
- Shockproof chassis structure
- Materials recyclable over 97%, according to European Directive 2005/64/CE

Electric features

- Energy recovery
- Rear-wheel drive
- 10 kW high efficiency AC brushless motor (15kW peak)
- Curtis motor controller
- Nominal voltage 72V
- Battery in AGM 72V refilling free and fast replacement. Lithium battery is available.
- Onboard automatic battery charger

Mechanical parts

- Rack and pinion steering
- Front wheels: suspensions - independent wheel - Mac Pherson with helical springs and hydraulic shock absorber
- Rear-wheels: leaf-spring with hydraulic shock-absorber
- Brakes system: front - dual circuit disks brakes with brakeforce distribution, rear - drum brakes
- Battery compartment protected from atmospheric agents
- Electric, electronic and mechanical components protected against ice, salt and impacts
- Tyres 145 R 13 (165 R 13 or M+S are available)

Comfort and Security

- Roomy and ergonomic cabin
- Padded adjustable seats with headrests
- Three-point safety belts
- Adjustable steering wheel
- Double-speed electric wiper
- Display with indications of speed, battery status, hour-counter and anomalies
- Electric heater with thermostat
- Driver seat with security sensor
- Additional socket 12V

Performance

- Range: up to 130 km certified ECE101
- Max speed: 40 Km/h
- Mileage cost: 1,50 € / 100 km (depending on the energy supplier)
- Max slope: 15% full loaded (19% - option)

Homologation

- EU N1 truck certificate

GECO AND GRIFO FEATURES

The electric shuttles of Esagono Energia – GECO and GRIFO - are unique in their category, ideal to carry up to 7 people with their luggage (or 4 + wheel-chair option on GECO). It has the European homologation N1 that provides advanced standards of quality and safety, allowing the circulation on public roads, and access to incentives where available.

Customised colours are available - for advertising purposes.

Batteries without maintenance (AGM, Leadsealed – no refilling needed) and collision-proof aluminium frame structure, 10 years guaranteed.

Our shuttles are versatile and functional vehicles that offer new solutions to sustainable mobility within the restricted traffic zones, urban centers, logistics centers, green areas.

GECO ELECTRIC SHUTTLE

Transportation capacity	6 people
Transportation capacity disable	4 + 1 wheel-chair (on request)
Loading capacity (luggage)	260 Kg.
Length	4.000 mm.
Width	1.200 mm.
Height	2.090 mm.
Axle spacing	2.070 mm.
Weight (full mass in running order)	2.000 Kg.

GRIFO SHUTTLE ELECTRIC SHUTTLE

Transportation capacity	7 people (8 - in private areas)
Loading capacity (luggage)	380 Kg.
Length	3.982 mm.
Width	1.360 mm.
Height	2.150 mm.
Axle spacing	2.070 mm.
Weight (full mass in running order)	2.000 Kg.
